

# Christmas Island's Heritage Community Workshop

The National Trust of Australia (WA) is developing a series of heritage projects under the Community Development Grants Programme. We would like to hear from you – what is special about Christmas Island? What is important to you? What do you think should be promoted to the rest of the world?

A community workshop will be held to create a deeper understanding of the Island's distinctive qualities and to talk about cultural heritage projects we can develop, for example oral histories; visual arts and exhibitions; identifying and mapping significant places and objects and looking after heritage places.

Please join us:

**6.30PM – 8.00PM ON THURSDAY, 7th APRIL
